

BUILDING TOMORROW'S INSTALLERS TODAY.

Because the future is in their hands.

At **iTe Products®**, we're known for the research and development that goes into each of our innovative products. We believe that making the same investment in people is even more important. That's why we've installed a state-of-the-art training facility at our head office in Alrode, Johannesburg South. It's customised learning space is equipped for demonstrations and hands-on learning about every facet of successful flooring installations. You already have the right products; now put them in the right hands. We offer training courses endorsed by leading brands in addition to teaching installers how to select, use and make the most of **iTe Products®** in every conceivable situation.

*Choose the **iTe®** Training Centre and enjoy certified success.*
